Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.

09/897,365

Applicant(s)

VAN DEN ENDEN ET AL

Examiner

Angela A. Armstrong

Art Unit

2654

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 October 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 7-26 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 14-18, 21 and 22 is/are allowed.
- 6) ☒ Claim(s) 7-13, 19, 20 and 23-26 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 24 May 2004 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Response to Amendment

2. The filing of 24 May 2004 was applied to the following effect:
 - The specification was changed as indicated and the objections are withdrawn.
 - The requested drawings are accepted and the objection is withdrawn as satisfied.
 - Claims 19-26 were added and the claims examined on the merits.
 - Claims 7-18 were changed and examined on the merits.

Response to Arguments

3. Applicant's arguments filed 08/26/2004 have been fully considered but they are not persuasive.

With regard to the 35 USC § 101 rejection of claims 7-13 and 23-25, the changes to the claims fail to overcome the non-statutory rejection by merely restating because a filter is a set of coefficients. The rejection maintained for claims 7-13 is applied to claims 23-25.

Regarding the objection to the specification, the MPEP is a guide to preparing clear and consistent patent documents. It was not responsive to cite a part of the MPEP that makes no mention of headers as rationale for disregarding the objection.

Art Unit: 2654

Specification

4. The disclosure is objected to because section headings for such as the Brief Summary of the Invention, Explanation of the Drawings, etc. cited as follows in the previous Office Action, remain missing:

The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC (See 37 CFR 1.52(e)(5) and MPEP 608.05. Computer program listings (37 CFR 1.96(c)), "Sequence Listings" (37 CFR 1.821(c)), and tables having more than 50 pages of text are permitted to be submitted on compact discs.) or
REFERENCE TO A "MICROFICHE APPENDIX" (See MPEP § 608.05(a). "Microfiche Appendices" were accepted by the Office until March 1, 2001.)
- (e) BACKGROUND OF THE INVENTION.
 - (1) Field of the Invention.
 - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (f) BRIEF SUMMARY OF THE INVENTION.
- (g) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (h) DETAILED DESCRIPTION OF THE INVENTION.
- (i) CLAIM OR CLAIMS (commencing on a separate sheet).
- (j) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
- (k) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

Art Unit: 2654

Appropriate correction is required.

Claim Rejections - 35 USC § 101

5. Claims 7-13, 19-20 and 23-25 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are not in the useful technical arts, consisting of types of mathematical subject matter not entitled to patent protection standing alone.

Allowable Subject Matter

6. Claims 14-18 and 21-22 are allowed.

7. Claims 7-13, 19-20 and 23-25 would be allowable if rewritten or amended to overcome the rejections) under 35 U.S.C. 101 set forth in this Office action.

8. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

9. The following is a statement of reasons for the indication of allowable subject matter:

The present invention is directed to a filter used in the reconstruction of speech signals, with the parameters for the filter being obtained directly from LSF.

Art Unit: 2654

Regarding claims 7, 14 and 23; Fette et al teach receiving a filter description (column 7 lines 10-12) comprising line spectral frequency coefficients (column 7 lines 1 2-1 5), Ramo teaches the step of computing a linear predictive coding filter from the line spectral frequency coefficients by computing an inverse polynomial (column 1 lines 1-2) by creating an ordered original series of polynomial factors comprising polynomial factors calculated from the line spectral frequency coefficients ((paragraph 0010) line 1) and Rotola-Pukkila et al read on the step of reducing the number of polynomial factors in the original series, combining the polynomial factors in pairs until only two final polynomial factors remain (by applying the liberal interpretation of decomposing, column 2 lines 5-13). The step of forming the inverse polynomial by multiplying the two final polynomial factors for calculating the filter coefficients from the inverse polynomial were neither anticipated nor was it found in obvious combination in the prior art of record.

Claims 8-13, 15-22 and 24-26 depend on claims that are allowed.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Angela A. Armstrong whose telephone number is 703-308-6258. The examiner can normally be reached on Monday-Thursday 7:30-5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richemond Dorvil can be reached on (703) 305-9645. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
